

## Litter Registration Form for Breeders

Please note this form is for the breeder and should be passed to them once filled out so they can assign the details to the pets in their account. It should not be posted or emailed to Identi.

### BREEDER'S DETAILS

|                                                                                                   |             |                |
|---------------------------------------------------------------------------------------------------|-------------|----------------|
| Mr Mrs Miss Ms (circle)                                                                           | First Name: | Surname:       |
| Company Name (if applicable, e.g. for a Welfare organisation):                                    |             |                |
| Breeder licence number and local authority:                                                       |             |                |
| Full Address:                                                                                     |             | Postcode:      |
| <b>Telephone Number:</b><br>Mobile:                      Emergency:                      Evening: |             |                |
| Email:                                                                                            |             | Date of Birth: |

### LITTERS' DETAILS

|                        |                |
|------------------------|----------------|
| Date of Microchipping: | Species/ Breed |
| Date of Birth:         |                |

| Microchip Number | Checksum | Name | Gender | Colour/Description |
|------------------|----------|------|--------|--------------------|
|                  |          |      |        |                    |
|                  |          |      |        |                    |
|                  |          |      |        |                    |
|                  |          |      |        |                    |
|                  |          |      |        |                    |
|                  |          |      |        |                    |
|                  |          |      |        |                    |
|                  |          |      |        |                    |
|                  |          |      |        |                    |

Once you have entered the microchip details and created the record, the chips will show in the breeders account under 'My Litters'. From here they can use the above details to assign pet and keeper details to each chip and initiate a rehome.
